This right is in addition to the Customer's right to claim a refund for any unauthorised payment within 13 (thirteen) months of the payment.

7. The individual or total value of the operations that the card holder may carry out with the Card may not exceed, at each moment in time, the authorized credit limit.

8. The card holder upon signing the operation document or entering the PIN and the authorization key of the operation, in the adhering establishment, will execute the authorisation and validation procedures of the Payment Operation, cash withdrawal or other operation that the card holder intends to carry out, and therefore accepts that, at that moment in time or subsequently, the Bank or the body which the Bank has mandated in order to comply with the received instructions may, as a consequence, demand payment from the card holder of the monetary amounts credited to it, under the agreed conditions.

9. The card can also be used to purchase goods and services, without the need for it to be presented physically, namely as part of e-commerce transactions. To do so, the card holder must indicate the card number and other details requested, and may be asked to provide Strong Customer Authentication, in the form of a one time password (OTP) or via the Bankinter Mobile App or any other method used in the banking sector to this end.

The use of the card without introducing the pin number is limited to maximum threshold per transaction, consecutively and on a daily basis, established by the Bank pursuant to the instructions in force in the banking sector and displayed on its website.

14. Whenever the Card Holder uses the card for a non-face-to-face transaction, making recurring payments to a particular merchant and/or authorising the same merchant to reuse these details to take payment for future transactions, it is expressly agreed and authorised that, in order to ensure that the respective payments can continue to be processed, in the event of renewal or replacement, for any reason, of that card, there will be no need to amend any card details, and the updated card details may be made available directly to that merchant, through the current Payment System, with the exception of MB Net card(s), or, in the event of risk or security reasons that rule out this option, and/or if the Card Holder communicates to the Bank, expressly and in writing, that they do not wish to make use of this service. In the case of recurring payment orders using the card, it is the Card Holder's sole responsibility to inform merchants whenever they intend to change or terminate these payments, separately from the process of renewing or replacing the card.

4.4. Account Statement and Payment of the Debt to the Bank

1. The Bank records in a Bank statement, the details of the operations made with the Card, and also the charges debited to the account holder, including, when appropriate, the respective exchange rates. a debit, authorised by the account holder, in the associated Current Account, at least 20 (twenty) calendar days after the issue date, with the date-value of the 20th day of the month after the issue date.

2. The value of full monthly payment will be the value of settlement in full of the balance used.

3. The value of the partial monthly payment will be that resulting from calculation of a percentage agreed with the Bank of the outstanding capital plus interest, fees and taxes (to be paid in the following month).

4. In the event that the Customer chooses to make a partial monthly payment, interest and stamp duty will be due on the unsettled amount, to be paid in the following month.

5. The account holder may pay a percentage amount different from the minimum established amount provided that the Bank is previously informed of this fact, via the respective Manager, up to the 19th day of each month.

7. Whenever the Bank provides for this option, the Customer may repay their purchases and transfers in instalments, under the terms and conditions set by the Bank and notified to the Customer. The APR and total rate of cost (TAEG) shall never exceed the rates applicable to the Agreement.

8. The purchase and transfer amount will be repaid in monthly, fixed and successive instalments, for the period agreed between the Customer and the Bank, subject to remuneration interest, which adds to the amount due every month.

9. The account holder shall verify the amount and correction of the details of operations registered in the Bank statement and shall inform the Bank, within a maximum of 10 (ten) calendar days, after the date of receipt of the statement. In the event that the account holder disagrees with any of these details the latter shall inform the Bank, specifying the respective grounds and evidence underlying his disagreement, if this is possible. Complaints shall be presented in writing, in a specific form sent for this purpose to the Bank, and shall be appraised and decided within the deadline that Visa International, for this purpose, grants to Banks for resolution of conflicts, counted from the date of receipt of the complaint, obviously depending upon

3. Revocation of the present Agreement does not imply any charge or obligation for the account holder who is entitled to restitution of the amount paid upon signature of the Agreement, minus any amounts paid by the Bank on account of taxes.

4. In the event that the account holder revokes the present Agreement, he shall immediately return the Card, duly unused, and also settle in full any amount that is owed to the Bank as a result of use of the Card as a Payment Instrument, within a maximum deadline of 1 (one) month.

5. After exercising the right of revocation, the account holder undertakes to pay the Bank the capital and interest due, counted from the date of signature of the present Agreement up to effective payment of the capital, without undue delays, within a maximum deadline of 1 (one) month after sending its communication. The daily nominal interest rate will be determined by reference to the nominal interest rate set in the Price list.

The maximum amount of credit (hereinafter called "Credit Limit") that the account holder may use is defined by the Bank on the date of signature of the present Agreement, in function of the account holder's financial conditions or solvability, and may be altered as a consequence of modification of these conditions.

7. The initial Credit Limit and its alterations will be communicated by the Bank to the account holder, and under no circumstances may be exceeded.

8. The credit that the account holder may use at each moment in time corresponds to the difference between the Credit Limit and the value of operations made with the Card, that have not yet been paid by the account holder. If the Credit Limit is exceeded, with or without authorisation from the Bank, the account holder shall pay the excess amount, in full, immediately, under the terms specified in the present General Terms.

9. When the value of the transactions made with the Card are not promptly paid by the account holder, under the terms defined in the present Agreement, the Bank may agree with the account holder, on a case-by-case basis, deferred payment of this amount, in which case remuneratory interest will be due on this outstanding amount, calculated in accordance with the deferral period, at the interest rate practised by the Bank for the type and period of credit and communicated previously to the account holder, in conformity with the terms indicated in the Price list. Interest, taxes, other charges and finally capital repayments shall be imputed, sequentially, to partial payments of the outstanding amount by the account holder. In the event that the account holder's debt is settled by another form of credit granted by the Bank, in particular via a Bank overdraft, the contractual conditions for this type of credit shall apply thereof.

10. When a credit card issued by the Bank also enables debit operations to be made and the account holder uses this faculty, the special conditions for debit cards shall apply to such operations.

4. In order to carry out operations with the Debit card it is normally obligatory to use the PIN as a means of identifying and validating these operations. Use of the PIN by the account holder or by the User in an electronic device is equivalent to a digital signature that has the same legal value as a written signature. On an exceptional basis, use and validation of operations using this type of card may be made in specific equipment items without using the PIN, in certain conditions and limits (concerning amount or number of transactions or any other condition to be established by the system) in equipment items without PIN introduction. Use of the Card as a means of payment or making cash withdrawals is only possible if the account holder has available liquid funds in the associated Current Account, except when, an agreement has been established between the account holder and the Bank, for concession of credit in a Bank overdraft regime, in which case it will be possible to use the card up to the maximum available amount of this Bank overdraft, wherein the conditions agreed for the Bank overdraft shall apply to the use of such credit.

7. The details of the operations made with the Card are included by the Bank in the Account Statement of the associated Current Account.

9. The account holder and User expressly authorize the Bank to open the envelope specified in the previous number and check its contents. Such checking shall be made by two staff members of the Bank branch where the deposit is made, and the respective content will be communicated to the account holder. In the event of a divergence with the amount declared by the account holder there will be the faculty of filing a complaint. Crediting of the amounts deposited in the Current Account associated to the Card depends upon their correct settlement.

10. The account holder's liability for uses of the card prior to the notification to the Bank of an incident, is limited to the balance available in the associated Current Account on the date of the first irregular operation, including credit granted by means of a Bank overdraft, or other facility, that has been agreed between the account holder and the Bank.

11. When the Cards are cancelled, either at the initiative of the Bank or the account holder, a deadline will be set, after which the Card may not be used.

12. In the event of death, prohibition or disqualification of the account holder or user, the right to use the Card will terminate, and the

This application requires the installation of special software owned by the Bank. This software bears a personal, non-transferable, limited and non-exclusive license that is granted to the Customer by the Bank and available via telematic download. As part of these services, the Customer may access accounts of which he/she is an account holder or joint account holder and whose transaction terms are those of an individual or collective account (solidary liability) or in case in the future it is permitted joint and mixed transaction terms, wherein all the rules established in the present General Terms shall prevail, in particular the active and passive solidary liability of each of the joint holders, as defined in the "General Terms of Adhesion for Bankinter Customers and General Terms of the Products and Services to be Provided to Bankinter Customers - Personal Account", regardless as to whether or not such account holders adhere to the Services.

Adhesion to the Services is individual (per holder, where there is more than one holder), and it is understood by the parties solely as an alternate means of communication with the Bank. To this effect, the co-account holders who do not adhere to the Services expressly acknowledge the subsistence of the solidary liability regime, for all acts performed by the other adhering co-account holders, and shall be bound by the latter's actions.

In the event of operations involving collective Current Accounts (with solidary liability), the other co-account holders who do not intend to adhere, henceforth, to these new channels, may freely continue to carry out transactions thereof using the physical channel, by means of written instructions duly formalised.

Any co-account holder may, at any time, request adhesion to the Services and adhere to these new communications channels, provided that they are previously bounded by the present General Terms.
